

straumann[®] Pro
Arch

Will you win an award for Straumann[®] Pro Arch?

Are you transforming patient lives through Straumann Pro Arch? We want you to participate in the Straumann Pro Arch Case Contest.¹

Through December 4, 2015, Straumann will be accepting case documentation that shows Straumann Pro Arch from the initial patient situation through the final restoration.

More than a product, Straumann Pro Arch is a solution that brings the treatment team together and gives patients a restored self-confidence and a reason to smile again.

“This has changed my life totally,
in every aspect”
– Terry, Patient

“I’m very confident that with my lab support, we can transition these patients from a very compromised dental situation to an implant-supported fixed hybrid that they will be able to function with for years to come, with great success and comfort.”
- Dr. William F. Runyon, Jr.

To kick off 2016 and coincide with the Hollywood awards season – we’ll be asking clinicians and CDTs to vote for their favorite case – and you could be eligible for the grand prize!²

Visit straumannproarch.com/contest.php to submit your case today.

¹ All submissions are subject to Straumann Legal and Regulatory review. Cases chosen for publication on straumannproarch.com may be subject to additional qualifications and review. For case submission guidelines, download a case submission form by visiting straumannproarch.com/contest.php. All cases approved by Straumann's Legal and Regulatory team will be posted to the website and the team will receive the case as a customized marketing piece to use at their discretion.

² Subject to state and federal reporting laws and regulations (Sunshine Act). Winning treatment team (surgeon, CDT, restorative dentist) is eligible to receive tuition, airfare and lodging to the ITI North America Congress April 28-30, 2016.
