

More than prosthetics

CARES® Screw-Retained Bars and Bridges.

According to the AAID (American Academy of Implant Dentistry), there are more than 30 million Americans that are missing all their teeth in one or both jaws.*

HOW ARE YOU SUPPORTING YOUR CUSTOMERS TO RESTORE THESE CASES?

Capitalize on this treatment solution and increase revenue with CARES® Screw-Retained Bars and Bridges for fully edentulous patients. Labs can access CARES SRBB via a variety of ways:

- CARES® Scan & Shape Service: on-demand CARES restorations for dental labs
- CARES® Prosthetic App for Dental Wings and 3M™ users
- In lab CARES® CS2 Scanner

HOW DO YOU MEET PATIENT EXPECTATIONS?

Some patients prefer removable dentures; others enjoy fixed solutions that mimic natural teeth. Create both through a diverse CARES bars platform:

CARES Milled Bar

- One-piece solution milled to your specification, delivered polished
- Features M2 standard threads for anchors or other attachments
- Optional gingiva contoured basal surface

CARES Basic Fixed Bar

- Cost effective alternative to a ceramic veneered bridge
- Sandblasted surface saves bench time; ready to be wrapped in acrylic
- Ideal fixed solution for ongoing tissue management

With the CARES® SRBB Abutment Level Connection you can

- Restore cases with strongly diverging implants
- Mix implant-level and abutment level to align one or more implants to each other
