

# CARES® MONOLITHIC RESTORATIONS: SIMPLICITY AND QUALITY AT YOUR FINGERTIPS

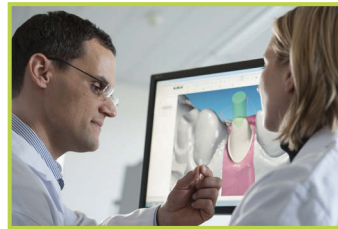

## NOW AVAILABLE – FULL CONTOUR ZERION® HT

Straumann® CARES® System 8.0 laboratories now have access to zerion HT, a translucent zirconium dioxide ceramic for efficient full-contour crown and bridge\* restorations.

- Available in 4 shades: pure, light, medium, intense
- Minimal processing: only polishing with no layering required
- Precise and detailed crown and bridge morphology

## EASY AND EFFICIENT

Monolithic restorations are a great choice for single-tooth, restorations. These materials are precisely milled based on CAD design, and require minimal handling to complete the final restoration. With Straumann's validated workflow from scan to design to mill, you can count on esthetic and predictable outcomes.

\*Bridges up to 3 units

# CARES® MONOLITHIC RESTORATIONS: SIMPLICITY AND QUALITY AT YOUR FINGERTIPS

## MORE MATERIALS, MORE CHOICES

Straumann offers laboratories a leading materials portfolio, with many monolithic solutions to choose from.
